

***LESS** is a unique strategy board game which turns “coasters” into a fun and very addictive game. The beauty of the game is in its ridiculously **simple rules** and over **100.000 different field combinations**. It is made for **two players**, but you can expand it into a competitive battlefield for **four players** just by combining two sets. One game lasts around **3 to 10min** making it ideal for relaxing and socializing with your partner or friends.*

## Welcome to the DIY version of Less board game

Before you start playing you will need to printout the tiles and find some improvised figures. Don't worry it's going to take you just a few minutes to prepare everything.

### Print the tiles

Start by printing Less game tiles. You can find them in two different paper sizes (EU and USA). They are named: “Less Tiles – EU” and “Less Tiles - USA” respectively. If you want to make your cards a bit sturdier we suggest you use a thicker paper or just glue them to a cardboard.

### Find something to use for figures

Look around your apartment for items that could be used as figures. It can be anything you find. To help you we have listed a few suggestions:

- Chess pieces
- Legos
- Wine corks
- Stones
- Other board game pieces

### Read the rules and start playing

Rules are really simple! Anyone can learn to play in Less than a minute ;) We've translated game rules in 7 languages. **You can find them on top of our website:** <http://www.less-game.com/>

### Have fun playing LESS!

After you try it for a while and if you like it consider upgrading to the real thing. It's much nicer and **you can even present it as a gift!** Visit our store: <https://shop.less-game.com/>
